PROFESSIONAL SUMMARY

Aspiring Full Stack Web Developer. Known for my eagerness to learn and ability to grasp new concepts quickly. You can always find me googling every question that comes across my mind, and utilizing technology in every way possible way. Recently received an Associates in Integrated Studies from Cascadia College as well as a Certificate in Computer Programming Foundations. Working towards a Full Stack Web Development Certificate from University of Washington's Coding Bootcamp. Embraces teamwork, but also enjoys working independently. Perfectionist who is devoted to creating clean applications that are practical and convenient for the user.

TECHNICAL SKILLS

Node.js., JavaScript, jQuery, GIT, GitHub, MySQL, HTML5, CSS3, Bootstrap, APIs, Terminal, AJAX, JSON, Java, C#, PHP

RELEVANT EXPERIENCE | PROJECTS

In the Moment | Backend Developer
| Deployed Link: *https://andrew1835.github.io/In_The_Moment/*
| GitHub Link: *https://github.com/andrew1835/In_The_Moment*
In the Moment is an app that allows users to search for a city and find events/breweries nearby.
- **Role**: Used Ticketmaster API to fetch an array of Events in a user given city and date. Fetched another array of breweries from Open Brewery DB API. Using HTML, CSS, and JavaScript, displayed a visual map using Google Maps API's and populated the locations of the previously mentioned breweries and events with color-coordinated markers.
- **Utilized**: HTML, CSS, JavaScript, AJAX, Server-side APIs

Weather Dashboard | Full Stack Developer
| Deployed Link: *https://bethanyfulcher.github.io/weather-dashboard/*
| GitHub Link: *https://github.com/bethanyfulcher/weather-dashboard*
A weather app that will give you the current weather conditions as well as a five-day forecast for a specific city.
- **Role**: Used jQuery AJAX method to make requests to server-side APIs. Created an HTML page and styled with CSS. Integrated OpenWeatherMap API and manipulated the DOM using JavaScript leveraging the DOM API.
- **Tools Utilized**: HTML, CSS, JSON, Bootstrap, AJAX, and Server-side APIs

Code Quiz | Full Stack Developer
| Deployed Link: https://bethanyfulcher.github.io/code_quiz/
| GitHub Link: https://github.com/bethanyfulcher/work-day-scheduler
Test you coding knowledge with this short quiz.
- **Role:** Created HTML page styled with CSS. Used JavaScript to manipulate the DOM every time a button is clicked. Created a fully functional quiz with high scores being stored into Local Storage.
- **Utilized**: HTML, CSS, JSON, Bootstrap, JavaScript
